

## PROVINCIAL GRAND LODGE OF HAMPSHIRE AND ISLE OF WIGHT

### Royal Albert Hall 300<sup>th</sup> Anniversary Event - Webcast

On 31<sup>st</sup> October 2017, the United Grand Lodge of England will hold a special meeting at the Royal Albert Hall to celebrate our Tercentenary. Tickets to the event were very limited, so UGLE has made arrangements for the event to be available as a webcast.

The event will be streamed live. It will also be available about three hours later for those unable to watch it live and then about 1 week later, an edited version will be put on line.

An internet connection with a minimum download speed of 10Mbps is required.

Any brethren who wish to view the webcast may do so by going to [www.RAH300.org](http://www.RAH300.org) which will redirect you to another web page hosted by StreamStudio. Some devices may require pre-registration.

The webcast can be viewed on any computer, tablet or smartphone which has a browser and where these allow, can also be connected to a TV or other viewing equipment to allow the experience to be shared.

It is recommended that, where the equipment allows, it is connected to the router by cable (Ethernet) in preference to Wi-Fi and also that other connections to the internet via that router are prevented for the duration of the webcast, to reduce the likelihood of the transmission being interfered with.
