Grand Lodge Data Protection Email

Towards the end of December 2017, an email with Data Protection as the Subject was sent by UGLE to brethren who had not completed a Form P since 2005 and therefore not signed the data protection declaration which now appears on the form. I understand that a number of brethren did not respond to the email, possibly because of security concerns.

I have now received notice from UGLE that it is their intention to send the email twice more, now and in 2 weeks' time in order to maximise any response and I am asked to disseminate this information to our members and to advise that the email is genuine and an early response would be appreciated.
